.....
.....

4. INTERNAL EXAMINATION

4. Injuries:-.....

(Please include number of injuries with type/site/size/its condition/ends of the wounds/depth/anti-post mortem injuries etc)

.....
.....
.....

4. Head & Neck:-.....

i) Skull

ii) Brain.....

iii) Cervical vertebrae.....

iv) Spinal cord

v) Vocal cord.....

vi) Trachea

4. Thorax

4. Ribs.....

5. Pleura

6. Lungs.....

7. Heart.....

8. Diaphragm.....

5. GIT.....

4. Oesophagus.....

- 5. Stomach (carnivore)
 - 2. Condition of the mucosa.....
 - 3. Type of food.....
 - 4. State of digestion.....
- 6. Stomach (herbivore).....
 - 2. Rumen.....
 - 3. Reticulum
 - 4. Omesum
 - 5. Abomesum
- 7. Intestine and its contents.....
- 8. Liver/Gall bladder
- 9. Spleen
- 10. Kidney

- 6. Pelvic Region
 - 4. Uterus and ovaries
 - 5. Penis and testis
 - 6. Bladder
- 7. Limbs

(Please give of hoofs, feet/paw, nails with and other necessary requisites)

- 4. Fore limbs (Left)(Right).....
- 5. Hind limbs (Left)(Right)
- 5. Any other special feature/(s)
- 4. Fractures
- 5. Disease
- 6. Foreign body

(Bullet or any other object recovered from the body
.....)

- 4. Maggots/orms
- 5. Specimen preserved

Organ preserved Desired Investigation

- i) Blood
- ii) Urine
- iii) Discharges
- iv) Stomach and its contents
- v) Intestine
- vi) Pieces of kidney /spleen
- vii) Any other organ for histo-pathology
- a)
- b)
- c)

Note:- (a) If any material have been preserved for histo-pathology please preserve it in 70% alcohol/10% Formalin (Formeldihyde*) 1F*:9 Water.

1. The article preserved only for chemical analysis, it should be preserved in saturated salt solution.
2. If any specific article has been preserved for any specific purpose than suitable container and or preservative should be used.
3. Size of sample for histo-pathology should be 1 cmX2cm, for other small pieces should be collected & preserved.

9 Opinion: (Including duration of death and if with probable weapon and nature or tentative cause of death i.e. diseases/poisoning/ internal/ external injuries/ electrocution/ snaring/ weapon injuries, with satisfactory scientific reason
